

An Overseeder That's A Real Overachiever

Classen introduces new self-propelled overseeder designed to produce thicker turf quicker

Classen, an industry-leading brand of turf care equipment, introduces the all-new Classen Hydro Overseeder. This new unit features a floating seed box that follows the contours of the terrain to precisely drop seed over 26 heat-treated blades that produce an industry leading 13 rows of planted seed in a 20-inch swath. The precision of the seed drop and the close proximity of seed rows instantly thicken existing turf through double planting while filling in balding or thinning turf areas with carpet-like seed coverage. The result is thicker turf quicker that is more resistant to weeds and disease.

The Classen Hydro Overseeder features a generous 40 pound capacity seed box that can either float for consistent seeding over bumpy and undulating terrain or lock in place at any of 10 depth settings for flat area, hill and slope seeding. This full-on commercial overseeder couples the power of a Honda® GX270 engine with the smooth infinitely variable power flow of a Hydro-Gear® T2 transmission to produce an operating speed of up to 3 mph forward and 1.5 mph in reverse - making quick work of even the largest overseeding jobs. Heavy-duty 13" flotation turf tread tires provide surefooted traction while dispersing unit weight evenly to eliminate turf tearing and rutting. And, like all Classen equipment, operator comfort and ease of use is built in. Blade engagement and single lever forward/reverse controls are located on the handles within easy reach. A seed dial with ten settings provides precise seed flow while a helpful seed drop flag (visible from the operator position) lets you know when seed is dropping and when it has stopped.

Classen Hydro Overseeder Specifications

Model Number: HTS-20H

Engine: Honda® GX270

Displacement: 270cc

Transmission: Hydrostatic, Hydro-Gear® T2

Seeding Width: 20"

Seeding Depth: Float/lock-in, 10 setting adjustable 0"-1.625"

Unit Width: 31"

Unit Length w/handle up/folded: 57"/45.75"

Unit Height w/handle up/folded: 45"/33"

Unit Weight: 300 lbs.

Ground Speed FWD/REV: 3 mph/1.5 mph

Productivity: 26,400 sq. ft. /hr.

Seed Hopper: 40 lb. capacity, removable seed cover

Number of blades: 26 (13 double-bladed shafts)

Row Spacing: 1.5"

Wheels: Front/Rear 13" x 5.00-6"

Warranty: 2-year
