POWER STEERING

SERIOUS AERATION

TA25 AERATOR

SEE IT NOW AT:
CLASSENTURFCARE.COM

Don't muscle the turn. Power it. The Classen PowerSteer™ Aerator is the ONLY aerator that steers through the tines for non-stop (non-stress) unmatched productivity.

The newly redesigned and lighter Aerator, with more comfortable handles and easier to use tine engagement bar, will have you aerating up to 32,850 sq. ft./hour.

Seriously Maneuverable

The only aerator with power steering! Patented technology powers steering through the tines during aeration for unmatched user comfort.

Seriously Simple

Low maintenance design with protective chain guards that keep debris out of the chains and sprockets, side bumpers that prevent catching on obstacles and heavy-duty, non-lube ball bearings help keep the machine in tip top shape rental after rental.

Seriously Productive

Following shapely curves and turning at the end of the row without removing the tines from the ground gets aeration jobs done quicker.
